Cellular immunologist with bioinformatics skills

Research interests

I am a cellular Immunologist with three core skills: *in vivo* models of inflammation, bioinformatics and clinical research. My current research obsession is regulation of mononuclear phagocyte (macrophage/ dendritic cells) differentiation during inflammation on a single cell level.

Roles

SENIOR RESEARCH FELLOW, TRINITY COLLEGE DUBLIN

- COVID19 Strategic partnership
- TCD Single cell Core development
- Trinity Kidney Health Centre, Prof. Mark A Little.

HONORARY RESEARCH FELLOW, UNIVERSITY OF MANCHESTER

- Co-managing Medical Research Council programme grant with Prof Allen
- Bioinformatics collaborations
- Core facility engagement

Past Employment

Research Fellow

SUPERVISOR: PROF MARK LITTLE

- Hired to lead single cell RNA-sequencing aspect of the Science foundation Ireland COVID strategic partnership.

Trinity College Dublin

2021

Research Associate

SUPERVISOR: PROF JUDITH ALLEN.

- Origin, heterogeneity, proliferation and effector function of macrophages during helminth infection and type 2 immune responses. Funding: Medical Research Council/Wellcome Trust

University of Manchester

2017-2021

Lecturer (teaching relief)

SCHOOL OF BIOCHEMISTRY AND IMMUNOLOGY

- I took on the teaching duties for a senior professor for 1 year including undergraduate practical supervision, undergraduate and masters level teaching, examinations and corrections.

Trinity College Dublin

2016-2017

Post-doctoral Researcher

SUPERVISOR: PROF KINGSTON HG MILLS.

- Research projects: 1. IP-protected translational project identifying and testing novel helminth-derived proteins as potential therapeutics for inflammatory disease. 2. Role of mast cells in the alternative activation of macrophages via IL-33. 3. Circadian regulation of autoimmune disease

Trinity College Dublin

2013-2016

Pharmaceutical advertisement and event reviewer

PAID INTERNSHIP

- Reviewed 5 years of pharmaceutical advertisements for assessment of compliance. Created and managed database for reporting issues and producing analysis documents. Liaising with marketing and scientific teams to address and solve issues.

Bristol-Myers Squibb

2007

Education

Informatics Training Scheme (Wellcome Trust TPA)

PROGRAMMING AND COMPUTATIONAL APPROACHES TO BIOLOGY MODULES

University of Manchester

2020

PhD in Immunology

IMMUNE MODULATION BY THE HELMINTH PARASITE FASCIOLA HEPATICA

- Supervisor: Kingston Mills

Trinity College Dublin

2013

BA(Mod) in Natural Sciences

BIOCHEMISTRY AND IMMUNOLOGY GRADE: 1:1

Trinity College Dublin

2007

SKILLS

Animal models of Disease: Experimental autoimmune encephalomyelitis, Litomosoides sigmodontis infection, OVA/Alum and dust mite-induced airway hypersensitivity, dextran sodium sulphate-induced colitis, circadian rhythm modulation, B16 melanoma, Sterile peritonitis, IL-4-complex administration, House airway hypersensitivity, Fasciola hepatica infection, Bordetella pertussis infection.

Laboratory techniques: In vitro cell culture, FACS & MACS cell sorting, flow cytometry, mass cytometry, tissue digestion, ELISA, enzyme assays, RT-qPCR, confocal microscopy, Amnis Image Stream, sample preparation for mass spectrometry and single cell RNA-sequencing. Basic experience with PCR, genotyping, immunoblots and library preparation for Next Generation Sequencing.

Clinical research: Preparation of cells from human blood. Biobanking, clinical database management. Patient stratification and statistical analysis. Working in as part of a multi-disciplinary scientific-clinical research team. Data curation and integration.

Programming, Data analysis, Statistics & Visualisation: R (Fluent), Python (Intermediate), Unix/Bash (Beginner). Data analysis/visualisation in and in R using Tidyverse and ggplot2. Advanced user of Microsoft Office applications, TreeStar FlowJo and GraphPad Prism. Competent user of Adobe Illustrator and pathway analysis tools e.g. IPA. Strong background in statistics and its application to experimental design and interpretation of results. Database creation and maintenance. Creation of Shiny Apps. Basic knowledge of computer science and use of high-performance computer clusters.

Bioinformatics. Analysis of microarray/bulk RNA-seq datasets analysis using the DESeq2 and EdgeR packages. Single cell analysis using Scater within SingleCellExperiment, pySCENIC, Velocity, Seurat, FlowCore, FlowSOM, CytosKit. Dimensionality reduction: PCA, t-SNE and UMAP. Progression analysis using monocle3, Destiny and RNA velocity. Clustering using Phonograph, DevSM, FlowSOM hclust and treeclust.

Formal Training

Single Cell RNA-sequencing

1 WEEK COURSE

- library preparation, sequencing, QC & analysis

Earlham Institute, University of East

Anglia

2018

Programming Courses

1 DAY COURSES

- R for Data analysis; High Performance Computing; unix environment & version control

Research IT, University of

Manchester

2017-2019

Home Office personal animal licence

1 WEEK COURSE; ONGOING TRAINING

- PIL A, B & C

University of Manchester

2017

Fluorescent activated cell sorting

1 WEEK COURSE

- Theory and practical training using BD machines

University College Dublin

2014

Presentations

ORAL

2021	Cytokine and interferon society meeting	Cardiff
2019	Irish Society of Immunology	RCSI, Dublin
2019	BSI Type 2 Immunology Meeting	Manchester
2019	KU Leuven, UZ Gasthuisberg Campus	KU Leuven
2015	Molecular and cellular biology of helminth parasites IX	Hydra, Greece
2015	TBSI Post-Doc Research Day	TCD, Dublin
2015	1st TBSI-Weimann joint Immunology conference	Rehovot, Israel
2015	European Congress of Immunology	Vienna
2009	European Congress of Immunology	Berlin

POSTER

2019	British Society of Immunology	Liverpool
2018	Type 2 Immunity in Homeostasis and Disease	Bruges
2017	British Society of Immunology	Brighton
2016	British Society of Immunology	Liverpool
2015	Frontiers in neurology	TCD, Dublin
2014	Cytokine and interferon society meeting	Melbourne
2012	Keystone: Biology of Cytokines	Colorado
2011	Cytokine and interferon society meeting	Florence

OUTREACH AND ORGANISATION

- **Discover Research Night**, Dublin Sep 2014. Marie Skłodowska-Curie-funded. I was the event organiser responsible for public engagement at Trinity Biomedical Sciences Institute, 8 weeks' full-time.
- **10th International Symposium on Bordetella**, Sep 2013. Logistics manager responsible for operations of the conference including registration, AV equipment and support for speakers.
- **Manchester Immunology Group Seminar Series**, May 2017 – Sep 2018. Co-lead organiser. Handling invitations, hospitality, communications, for renowned international speakers to visit University of Manchester.
- **School talk**, Oaklands Community College, Edenderry Co. Offaly. "The life of a scientist." 2021
- **Single Cell TCD Core facility**. I formed a working group in 2021 in Trinity college dublin to address the competitive disadvantage of not having a working single cell RNA-sequencing. My aim is to deliver a single cell RNA-seq service to TCD researchers on a cost per service basis that will act as a platform to develop a full core facility service.

Grants

MR/V011235/1 Programme Grant

Medical Research Council

2.26 MILLION GBP CO-INVESTIGATOR

2021

- "Macrophages in type 2 immunity: unravelling susceptibility and resistance to tissue nematode infection". Funded, 2.26 million GBP. Co-wrote grant and provided scientific design and preliminary data. I was awarded an honorary research fellow position at UoM to facilitate ongoing involvement in this project when I left Manchester to return to Ireland.

Building Engagements in Health Research Scheme

Internal TCD

10K EUR, CO-APPLICANT

2021

- Co-Applicant as scientific lead with Jennifer Scott (TCD, ICAT fellow) as medical lead. 'Nanoparticle modulation of neutrophil and monocyte responses to ANCA'
- Shortlisted for UKRI Innovation/Rutherford Fund Skills Development Fellowship (Computational Biology), Sep 2017.

Awards

- 2019 Best presentation from selected abstracts - Irish Society of Immunology
- 2015 Visiting student training scheme - Weizmann Institute of Science
- 2015 TBSI Post-Doc Research Day - Runner up talk prize
- 2014 Milstein Travel Award - International Cytokine society
- 2007 Valdicotrian - Biochemistry with Immunology degree
- 2007 Best Undergraduate Research Poster Prize - School of Biochemistry and Immunology

Teaching

- 2021 R programming, data visualisation and transcriptomic analysis (3 workshops) *MSc in Immunology*
- 2016-2017 T cell differentiation, effector function and regulation (4 lectures) *BA(Mod)*
- 2016-2017 Cancer immunology and immunotherapy (2 lectures) *BA(Mod)*
- 2016-2017 EAE as a model for multiple sclerosis *BA(Mod)*
- 2016-2017 T cell differentiation, effector function and regulation (2 lectures) *MSc in Immunology*
- 2014-2017 Introduction to parasite and type 2 Immune responses (3 lectures) *MSc in Immunology*

Other duties include Undergraduate practical supervision, tutorials, and organising visits of school students as various points between 2013-2016. Introduction to data scientists for immunologists course available here. Acting as an official 'external mentor' of a PhD student in Wellcome Trust in Immunomatrix in Complex Disease PhD program in Manchester.

Supervision

2 week student project

BACHELOR IN MEDICINE

- Lab/statistical training. Continued Informal mentorship with one student.

Trinity College Dublin

2021

3 month student project

BA(MOD)

- Co-primary supervisor – lab/statistical training, writing mentorship. Ongoing collaboration with a co-first author paper in preparation together.

Trinity College Dublin

2021

Formal supervision

RESEARCH ASSISTANT

- Direct supervision and training. Daily interaction.

Trinity College Dublin

2021

6 month student project

MRES INFECTION BIOLOGY

- Co-primary supervisor - project design and mentorship & direct supervision/training, student now in UK graduate Industry role.

University of Manchester

2020-2021

6 month student project

MRES INFECTION BIOLOGY

- Co-primary supervisor - project design and mentorship & direct supervision/training, student now a PhD Candidate in Leeds.

University of Manchester

2018-2019

Informal mentorship

PHD

- Informal supervisor. Project design and management and career mentorship. Two papers published together, awarded best presentation at ICS 2018. Now a Post-Doc in Glasgow.

Trinity College Dublin

2017-2021

3 month student project

MSC IMMUNOLOGY

- Co-primary supervisor - project design and mentorship & direct supervision/training. Student now a PhD candidate in TCD.

Trinity College Dublin

2016

Informal mentorship

PHD

- Informal supervisor. Project design and management.

Trinity College Dublin

2015-2017

3 month student project

MSC IMMUNOLOGY

- Co-primary supervisor - project design and mentorship & direct supervision/training. Project led to IRC-funded PhD that I co-wrote.

Trinity College Dublin

2015

3 month student project

MSC IMMUNOLOGY

- Co-primary supervisor - project design and mentorship & direct supervision/training. Student now in Biotech Industry role.

Trinity College Dublin

2014

REVIEWING

2021 French National Research Agency (ANR) 2021 generic call
2021 BBSRC Discovery Fellows award
2018 Manuscript reviewing
